job title

APRIL 5, 2023

Company

To Whom It May Concern:

TITLE!

first paragraph

My experience in the fast paced world of New York Fashion would make me a great candidate for this role. I have obtained the skillset needed and molded my personality to work with high-end designers on tight schedules. Usually multi-tasking multiple seasons of merchandise at once. My goal was to produce the best quality goods for the lowest price while preserving the designers vision. After analyzing cost sheets and price lists I would present our design and merchant team with creative solutions.

Before my days in NYC I spent 8 years working in retail. Although I started in sales, I eventually worked in back of house as an inventory specialist. Creating plans for receiving new inventory and how to work our current selection through the sales floor. From there I worked my way up to being our stores Visual Merchandiser, which gave me my first experience with line sheets.

Although I am from Ohio and I love Columbus, I miss the feeling New York City put in my chest. I still feel it even when visiting. I have been looking for a role that would allow the opportunity to remain living in Columbus but travel to and work from New York. I'm a buckeye with that NY hustle.

It is hard to contain my excitement for both this role and the opportunity to work with a company that loves dogs as much as I do. I look forward to hearing from you.

Thank you ,

Derek Meduri
